Advanced Nutritional Management of Ornamental Crops, HOS5432

Instructor Contact Info

Dr. Kimberly Moore
3205 College Ave. Davie FL 33314
954-577-6328
954-475-4125 (fax)
Email: klock@ufl.edu; Skype: kimberly.moore27
Office hours: upon request

Email/phone messages: students can expect a response within 24 hrs. M-F and within 72 hrs. on weekends. **My preferred way of communicating with students is using email.** I check my UF email frequently every day and on the weekends. If I plan to be out of the office or out of email communication, I will email the class and post an announcement on the class website.

Course Overview

This is an online graduate level course presenting techniques for determining, interpreting, and managing the nutritional status of ornamental horticulture plants in the greenhouse, nursery or landscape. Topics that will be covered include: meter selection and calibration, water analysis, substrate/soil analysis, report interpretation and writing, diagnosis and recommendations.

Course Prerequisites

SWS 5050, HOS5515C, or consent of instructor

[\[Top\]](#)

Acceptable Course Participation

This is an online course with weekly lectures and assignments. The week begins on Monday and ends on Sunday. Students are expected to login to the course website at least once a week (see [schedule](#)) to complete the reading assignments and watch the narrated lecture (see [course goals and assignments](#) & [assessment](#)).

All course materials will be available via the Canvas course website. Students are expected to participate in online discussions and chat room meetings, unless they have an excused absence. Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found in the online catalog at: <https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/>

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluation online via GatorEvals. Guidance on how to give feedback in a professional and respectful manual is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

[\[Top\]](#)

Course Goals and Assignments

Upon successful completion of this course, students will be able to: measure water quality parameters (pH, soluble salts, alkalinity); measure substrate/soil physical parameters (total porosity, air filled porosity and container capacity); measure substrate chemical parameters (pH and soluble salt); select and calibrate meters used in nutritional diagnosis; interpret water analysis reports; interpret soil analysis reports; make recommendations for improving crop growth based on data collected in the field.

This course is divided into three modules (see [schedule](#)). Each module consists of four recorded lectures with related assignments and a challenge assignment. Each week, students will be responsible for completing the reading assignment, watching the narrated presentation and completing a discussion post (see [late assignment policy](#)).

November 7, 2019

Discussion posts: Discussion posts must be completed by Sunday at 5 pm ET. Discussion posts should be well written and address the issue or question being discussed. All posts should be made within in the week assigned. Discussions will be graded on the quality and timeliness of the response (see discussion grading rubric attachment under syllabus tab). Each student is expected to comment on **two fellow class mates' posts**. Discussion posts will be accepted up to four days after the due date but will be marked down five points. They are worth 10 points.

Challenge assignments: During the semester, the instructor provide nutritional problems to be diagnosed. Reports should be written following the guidelines in the rubric attached to the challenge question. Each challenge is worth 25 points.

Scholar's Ignite: You will complete **two** scholar's ignite assignments. The first one should be on a topic that you have selected to research and present. Select a topic to research and review. This topic should be an expansion on one of the topics covered in this course. Your goal is to go into more depth on this topic in a short 3 minute recoding. Your second scholar's ignite is to find a plant problem (similar to the challenge assignments) that you diagnose; suggest a solution, and prepare a 3 minute recording about the problem. Each presentation is worth 100 points for a total of 200 points.

1. Develop a 1-slide, 3-minute presentation using computer software. The presentation should rely upon pictures, tables, or graphs to convey your idea(s). Remember that your presentation should be developed for a diverse audience, thus presented information should be comprehensible to individuals without expertise in the subject area.
2. Upload your presentation within Canvas.

You will be graded on the following:

1. Communication style: how well did the presenter communicate the topic or information?
2. Comprehension: was the presenter clear and organized?
3. Inspiration and engagement: did the presentation inspire you?
4. Impact: did the presentation have a strong influence on your knowledge or perception?
5. Content: was the presentation content clear and well organized with information pertinent to the subject?

Grades for all assignments will be posted seven days after the student turns them in. If the instructor cannot return the assignment within this time frame, the instructor will notify the student as to when the assignment will be graded. [\[Top\]](#)

Assessment

See [schedule](#) for dates. The week begins on Monday and ends on Sunday. All discussions or assignments need to be completed by the end of each week (Sunday 5 pm, Eastern time zone).

November 7, 2019

The accepted format for all assignments is MS Word files. If there is a malfunction with the class site or computer malfunctions occur, assignments may be emailed or sent via fax. It is the obligation of the student to inform me of such malfunctions immediately.

All grades are based on the number of points earned out of total number [of points](#) * 100 to calculate a percentage.

[Module 1](#) – *Appraising the problem, essential elements, nutrient uptake mechanisms, and visual diagnosis*

[Module 2](#) – *Meter calibration, substrate physical, substrate chemical, water analysis*

[Module 3](#) – *Fertilizer, nutrient use efficiency, landscape issues, interaction*

Learning Community Overview

1. Consider yourself a member of a community. A community is a group of individuals who work together to support a common goal or interest.
2. Treat all contributions made by other members with respect.
3. Keep an open mind.
4. Ask for help when you need it.
5. Assist others when possible. Share questions and ideas with the rest of the class.
6. Have patience with the technology.
7. Respect diverse opinions and viewpoints of each member in the community.
8. Contribute regularly.
9. All postings shared within this community should reflect acceptable content standards. You are expected to use discretion and if asked you will be expected to demonstrate how your content supports the focus of this community.
10. Student participation on a weekly basis is an essential aspect of the online course process. All students are expected to do the work assigned, notify the instructor when emergencies arise, and make up missing assignments no later than four days after they are due.
11. If at any time, you feel that any of these ground rules have been violated by a member of our community, you are encouraged to bring your concern directly and immediately to the instructor.

Netiquette & Discussion Expectations

Netiquette (short for "network etiquette" or "Internet etiquette") is a set of social conventions that facilitate interaction over networks, ranging from Usenet and mailing lists to blogs and forums (as defined by Wikipedia).

November 7, 2019

Adapted from Rules of Netiquette (<http://www.albion.com/netiquette/corerules.html>)

1. Remember the human. Never forget that the person reading your mail or posting is, indeed, a person, with feelings that can be hurt.
2. Adhere to the same standards of behavior online that you follow in real life.
3. Know where you are in cyberspace.
4. Respect other people's time and bandwidth
5. Make yourself look good online. Check grammar and spelling before you post. Know what you're talking about and make sense. Do not post flame-bait.
6. Share expert knowledge.
7. Help keep flame wars under control. Flame is a personal attack. It is possible to disagree without attacking the person. Use emoticons and acronyms to convey emotion to avoid misunderstanding.
8. Respect other people's privacy.
9. Don't abuse your power.
10. Be forgiving of other people's mistakes.

Academic Honesty

As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge: "***We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code.***" You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: "***On my honor, I have neither given nor received unauthorized aid in doing this assignment.***"

It is assumed that you will complete all work independently in each course unless the instructor provides explicit permission for you to collaborate on course tasks (e.g. assignments, papers, quizzes, exams). Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For more information regarding the Student Honor Code, please see: <http://sccr.dso.ufl.edu/process/studnet-conduct-code/>.

Software Use

All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

Campus Resources

Health and Wellness

U Matter, We Care: If you or someone you know is in distress, please contact umatter@ufl.edu, 352-392-1575, or visit umatter.ufl.edu/ to refer or report a concern and a team member will reach out to the student in distress.

Counseling and Wellness Center: Visit counseling.ufl.edu/ or call 352-392-1575 for information on crisis services as well as non-crisis services.

Student Health Care Center: Call 352-392-1161 for 24/7 information to help you find the care you need, or visit shcc.ufl.edu/.

University Police Department: Visit police.ufl.edu/ or call 352-392-1111 (or 9-1-1 for emergencies).

November 7, 2019

UF Health Shands Emergency Room / Trauma Center: For immediate medical care call 352-733-0111 or go to the emergency room at 1515 SW Archer Road, Gainesville, FL 32608; ufhealth.org/emergency-room-trauma-center.

Academic Resources

E-learning technical support: Contact the UF Computing Help Desk at 352-392-4357 or via e-mail at helpdesk@ufl.edu.

Career Connections Center: Reitz Union Suite 1300, 352-392-1601. Career assistance and counseling services career.ufl.edu/.

Library Support: cms.uflib.ufl.edu/ask various ways to receive assistance with respect to using the libraries or finding resources.

Teaching Center: Broward Hall, 352-392-2010 or to make an appointment 352- 392-6420. General study skills and tutoring. teachingcenter.ufl.edu/

Writing Studio: 2215 Turlington Hall, 352-846-1138. Help brainstorming, formatting, and writing papers. writing.ufl.edu/writing-studio/

Student Complaints On-Campus: sccr.dso.ufl.edu/policies/student-honor-codestudent-conduct-code/

Services for Students with Disabilities

Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, www.dso.ufl.edu/drc/) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.
